Consciousness: A Very Short Introduction

"The last great mystery for science," consciousness has become a controversial topic. Consciousness: A Very Short Introduction challenges readers to reconsider key concepts such as personality, free will, and the soul. How can a physical brain create our experience of the world? What creates our id

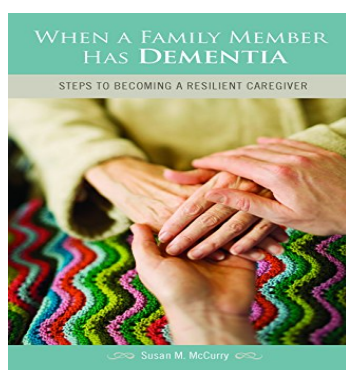

The Negotiable Golf Swing: How to Improve Your Game Without Picture-Perfect Form

Helps you to discover non-negotiable swing elements, those centred on irrefutable laws of the flight of the ball, as well as the full complement of swing components that are negotiable. This title offers ideas on how to assist clients and players that cling stubbornly to their swing mechanics.

A Drop of Night

Modern-day teenagers meet a palace of terrors locked up since the French Revolution in this haunting, genre-bending thriller from Stefan Bachmann, the internationally bestselling author of The Peculiar and The Whatnot. A Drop of Night will thrill fans of Neal Shusterman and Jessica Khoury.

When a Family Member Has Dementia: Steps to Becoming a Resilient Caregiver

Caring for a person with dementia is a difficult and often- overwhelming task. In addition to the inevitable decline in memory and physical function, most persons with dementia develop one or more troublesome behavior problems, such as depression, fearfulness, sleep disturbances, paranoia, or physi
