NLP: 10 Neuro-Linguistic Programming Techniques and Skills for Busy People: All You Need for Your Success in Short Lessons

Neuro-linguistic programming (NLP) is an approach to communication, personal development, and psychotherapy created by Richard Bandler and John Grinder in California, United States in the 1970s. This book gives you the basic knowledge in half an hour.

American Gothic Tales (William Abrahams)

Joyce Carol Oates has a special perspective on the "gothic" in American short fiction, at least partially because her own horror yarns rank on the spine-tingling chart with the masters. She is able to see the unbroken link of the macabre that ties Edgar Allan Poe to Anne Rice and to rec

What others say about this ebook:

Review 1:

It takes a lot for me to write a review of a product online. I'm usually a lurker who is content to trust the reviews of others. This one really irked me. The book itself wasn't great (there are way too many typos, as others have pointed out), but what really upset me was the seeming impossibility of accessing the additional tests through Princeton Review's website.

Upon registering the book, the user has to jump through a series of hoops to ensure that the browser "meets the minimum requirements," including installing Adobe Reader and Java, and disabling popup window prevention. Since Java doesn't run in Chrome, I switched over to Firefox, which PR assured me works best with their system. I was told that an untrusted applet prevented the launch. I tried it in Edge (I'm running Windows 10) and in Internet Explorer, all to no avail. I would be very surprised if someone who doesn't work in IT (as I do) would be able to get this working.

Again, I think I got a lot out of working the practice tests included in the book, but considering that 4 more are promised online, the purchase came up far short.

Review 2:

Book as described

Review 3:

perfect

Review 4:

Good

Review 5:

Brand new, and much needed.
