The Five Faces of Genius: Creative Thinking Styles to Succeed at Work

What do Wolfgang Amadeus Mozart, Leonardo da Vinci, and Ray Kroc, the man who created the McDonald's franchise enterprise, have in common? They have all mastered the skills of creative genius-essential tools in today's business climate. Having researched the lives and techniques of past and

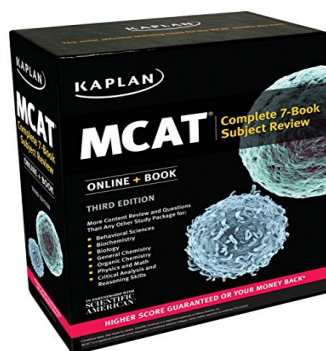

Flat-Out Celeste (Flat-Out Love) (Volume 3)

For high-school senior Celeste Watkins, every day is a brutal test of bravery. And Celeste is scared. Alienated because she's too smart, her speech too affected, her social skills too far outside the norm, she seems to have no choice but to retreat into isolation. But college could set her

Rogue on the Rollaway

Hell hath no fury like a faery scorned. A man out of time. Enchanted by a jealous faery, 13th century warrior and druid Faolan MacIntyre has his work cut out for him. In order to break his curse, he must entice a woman to fall in love with him. His love comes at the highest possible cost, however.

Kaplan MCAT Behavioral Sciences Review: Created for MCAT 2015 (Kaplan Test Prep)

The MCAT is changing in 2015. With the addition of three semesters' worth of material, more advanced critical thinking skills, a longer duration, and changes in Behavioral Sciences content, the new exam requires even more diligent prep with resources from Kaplan Test Prep. Kaplan

What others say about this ebook:

Review 1:

Over all I was very disappointed with Parenting With NPL. This book had potential to be good, the author has a great writing style. Unfortunately applicable NLP techniques were not discussed. I found it annoying that nearly half of this "book" was advertising. I felt like this would be better described as an interesting article with a couple tips on parenting, it is definitely not a book, it is not about NLP, and the chapters are very incomplete only hinting at the subjects that they are covering. This book should have been at least ten times longer and more instructional to adequately cover the subject.

Review 2:

While no parent is perfect, this book contains alot of good ideas that can help. It will show you how to keep your emotions in check, which is so important when dealing with children. It explores the idea of NLP, which is an interesting concept in and of itself. This book will help you to explore your parenting beliefs, and how they affect you and your children. The author also shows you how to build relational value with your children, along with how to set the proper boundaries for your children.

Review 3:

This book has been very helpful to me. I really liked the section on looking at limiting beliefs. That alone is well worth the price of this book. I highly recommend it.

Review 4:

I found this book to be a useful starter guide to helping Parents with stubborn unruly children. It gives some good pointers for setting boundaries, how to stick to boundaries with your children and also, just be there for your children when they need you. I'm testing some of the tips on my 14 year old nephew and believe that I'm seeing positive results, but we are early in the process and not sure yet.

Review 5:

I bought this for my friend who is pregnant with her first child and she has reported back to me that it is such an interesting read and not just for parents, but for people who have nieces nephews that they mind so I am going to read it now myself as she praised it so much!
