Michelin Regional Maps: France: Languedoc-Roussillon Map 526

Michelin hard-cover regional maps for France contain practical road and route information. The special Michelin reads-like-a-book format makes it easy to unfold and refold after use, eliminating the need to spread open the whole map. Maps offer valuable information, including locations of gas stations, rest areas and toll roads on main highways and primary roads, as well as numerous points of interest pulled from Michelin Green Guides. Clear, precise cartography with symbols highlighting important travel information allow travelers to quickly find their way.

What others say about this ebook:

Review 1:

These maps are great for an overview....which is harder to get in detail on a cellular phone. They are pricey...but worth the price. Be sure you understand what region is covered, however.

Review 2:

This map and the other Michelin maps that we ordered for regions of France are very detailed and very well done. But, to find your way through the back roads, a GPS is far better. The GPS provides warning of how far away the turns are, and there were a lot of them. We would not have traveled as extensively through the smaller communities and out-of-the-way places with only maps and the traveling that we did would have been far more frustrating with just the maps. I have always liked maps and thought of the GPS a nonessential but am now an enthusiast.

Some of the reviews mentioned that the maps were large and awkward in the car but we had no problem in that regard.

Review 3:

The biggest map (scale) I have ever seen.
