The great Lakshmi, the goddess of wealth and fortune. She is renowned across all of India as the most beneficent goddess of the Hindu Pantheon. She not only bestows wealth and fortune in the material world, but also the spiritual. That is the beauty of Lakshmi. When you call upon her, she prepares you for wealth and fortune from the inside out. Often it happens very quickly and in some cases, it can take some time. In either case, she is very responsive.

In this book, we will tap into the 8 manifestations of this great Goddess. These 8 emanations will help you achieve wealth and prosperity in more than one area of life. Unlike her some of her fellow goddesses, she is gentile. She is not a Kali or a Druga, she will approach you gently.

In the next chapter, we will discuss the idea of the divine feminine and then we will discuss Lakshmi in a bit more detail and then get right to business.

Let us begin.

## What others say about this ebook:

#### Review 1:

Not as much information and instruction as I was hoping for....but for the price, I'm glad I bought it. Surely there are other books published by bigger companies with way more information as to rites and rituals.....

#### Review 2:

I love it the chants are nice it easy to read ill keep you updated on my manifestation

#### Review 3

As someone who loves her mother goddess, this is a cute little reference book if you need to look up something. There are spelling mistakes in the pages and most of these mantras can be found on the internet. However, I am going to add in additional information since there is enough blank spaces to aid in my own practice. This book was not horrible but it was not what I was expecting it to be. Like I said, a good reference book. If you're looking for a book about the mantras, this is it. If not, look elsewhere. Also, another thing that bothered me was the cover. When I received the book it was pixilated meaning they didn't use a high enough resolution. As a graphic designer, this is sort of a flaw as well. But that's just my opinion.

#### Review 4:

as advertised.

### Review 5:

This book is small, but very consistent. The Mantras are not always easy to read, though there is always the most faithful translation in English of each one of the Mantras which, by the way, they are all pretty powerful ones. I truly appreciate the work of this author, Thank you!
