What others say about this ebook:

Review 1:

Purchased as a gift...they seem to like it.

Review 2:

Wonderful book!! I highly recommend it. It has given me the opportunity to discover and record my Mom's most cherished memories. It has also been a tool to stimulate brain activity as she has developed short term memory loss due to dementia which we fear is alzheimers. Using this book allows my Mom to relax with conversation because it keeps her in the past where her memory is sharp. She is less agitated and nervous and while writing down her stories it takes her to a happy place. Her confidence builds as she recounts and writes in detail about her past. Our time together is precious and fleeting and I am so thankful that I bought "Conversations with My Mother". Please buy this book before it is too late. Thank you. With sincerity and appreciation, Shelley

Review 3:

I ordered this and the Conversations with My Father for Christmas gifts. Both were well received and they are excited to go through it. They both said the questions will required some deep thought though, so they are silly and easy questions all the way through.

Review 4:

A beautiful and caring way to strike up convos with mom. Some memories will bring tears or joy and sadness. But it helps to form a story. Live learned so much from my mom.

Gave one away as a gift and ordered more to share!
