More Than Comics (Chasing The Dream) (Volume 2)

They're friends online - but can they be more in real life? Writer Tara McFadden has been friends with artist and drummer Hector Fernandez for years, long before his band became famous on reality TV - yet they've never met in person. They finally have a chance to connect offline when they're both sent to Comic-Con to promote the graphic novel they collaborated on. Hector's secretly been in love with Tara for as long as he can remember, and once they meet, she sees him in a new light. All the years of longing lead to an incredible night of passion after one of his concerts, but neither is sure if their online relationship can translate into a real life romance - or if this w

What others say about this ebook:

Review 1:

This series does what the reader wants it to -- each book has a HEA, each one stands alone, each one has shared characters that you want to read about, and each one has a unique story (not a repeat plot of the last one).

I enjoy getting inside each character's head - I like seeing the male and female POV of each situation. The writing is good and well edited; dialogue makes sense, and the steamy is delish!

On to book 3..., :)

Review 2:

I love these books! I can't stop reading them...I go from one right into the next!

Review 3:

Great book. Loved it!

Review 4:

I enjoyed this book so much I could not put it down. It's so hard not to fall in love with Hector, the strong slight silent type and handsome too. I can't believe this book almost did not get written.

Review 5:

I bought this book after reading "More than Music," the first story in the Chasing the Dream series. I enjoyed "More than Music," but "More than Comics" was even better. Shout-out to the author for being one of the first to introduce geekdom into the world of romance novels! Okay, so, the plot: Hector is the drummer in the newly famous band Villain Complex, but he also illustrates graphic novels on the side. His colleague in this endeavor is Tara, a writer who has also been Hector's secret love for years although they've never met in person. When they finally meet up at San Diego Comic Con, sparks fly- and you might need a cold shower afterwards! I have a thing for Latin guys, but even if he hadn't totally been my type, I would have been head over heels for Hector anyway. I went straight from this book to the next one, "More than Fashion," which turned out to be my favorite in the series so far.
